

## PRESS RELEASE

**February 2006**

### **New Beneteau Yachts From US**

Reliance Yacht Management is pleased to announce that they have been chosen to undertake quality control and deliveries of Beneteau yachts from Charleston SC.

The first contract from South Carolina will be this month, to take a new Beneteau 323 to Tortola where it will join a busy charter fleet. Reliance serves the same client in Europe providing trucking, QC, commissioning and deliveries of Jeaneau, Bavaria and Fountaine Pajot Catamarans.

*"We are delighted with this news." says Nick Irving. "We have shown to our clients that we are capable of undertaking the QC and logistics of moving yachts in all parts of the world. Our corporate clients are no longer restricted to the limited choice of local suppliers but can have a well coordinated global policy with a continuity of service from a single professional supplier."*

The company has been well known in the US for a number of years but its greater operational experience has been in Europe, Caribbean and South Africa. Reliance has become the leading yacht delivery and logistics company with many of the world's top dealers, manufactures and charter operators utilising their services to enhance their own performance and efficiency.
