

Reliance Yacht Management provides free App.

The world's leading delivery company is now offering a free App for their clients, enabling them to track their yachts at sea.

The mobile application for iPhone, iPad, & Blackberry smartphones allows yacht owners, dealers and fleet operators to view real time reports directly on their mobile devices. The service provided is in association with yachttrackers.com who provide the hardware. Clients will be able to receive location information and track progress anytime on the go. Enhanced features include speed, distance and bearing between locations.

Client do not even need to own the tracker and there is no airtime subscription. This is included in the service that is being rolled out starting with the long haul deliveries.

Features

1. Manage and view Shared Pages
2. Show Check-In, Custom, Help & Track messages
3. GPS Statistics between locations - distance, speed & bearing
4. Map single or multiple GPS locations
5. Satellite, map or hybrid views

Requirements: Compatible with iPhone, iPod touch, and iPad. Requires iOS 3.0 or later
Versions also available for Blackberry and Smartphones

Reliance is the leading yacht delivery and logistics company with many of the world's top dealers, manufacturers and charter operators that utilise their services to enhance their own performance and efficiency.
