

PRESS RELEASE

June 2010

Yapluka Owner Chooses Reliance Yacht Management

Reliance Yacht Management is pleased to announce that they have been chosen to undertake the delivery of the Yapluka 70 Catamaran hull #01 to the Mediterranean.

Described as the world's largest black cat it has been designed and built for comfort, S/Y Wonderful's endless list of features are what stands her aside from other catamarans in this class. Her alluminium construction gives her safe sea keeping capabilities so is an ideal yacht for those looking to escape a little further from the beaten track. Her four guest cabins are spacious and luxurious but the salon and cockpit are comparable to much larger motor yachts.

Warren East of East Yachts who oversaw her build and commissioning will be handing her over to the the delivery crew. The Reliance crew will consist of Captain, mate and four deckhands that will help deliver her safely from the Caribbean to the Western Med where she will start her charter season.

Reliance Yacht Management has been well known in the Mediterranean for many years but its greater operational experience is in US, Caribbean and South Africa. Reliance has become the leading yacht delivery and logistics company with many of the world's top dealers, manufactures and charter operators utilising their services to enhance their own performance and efficiency.
